Other skills: Data Science, Microsoft Power BI, Gen AI

PROJECTS

Portfolio Website (ajaiiportfolio.ccbp.tech)
A comprehensive website to showcase the professional journey of a person, including their portfolio, skills, testimonials, and contact information.

- Built with HTML structure elements and Bootstrap components, offering an intuitive and responsive layout.
- Features a dynamic testimonial carousel, showcasing endorsements from a range of satisfied clients and peers.

Technologies used: HTML, CSS, Bootstrap

TN CivicIntel Website (https://tn-civicintel-greivance-system.streamlit.app/)
Developed an AI-powered grievance platform for Ariyalur District, enabling automated drafting of professional complaints for 10+ departments like Water and Electricity.

- Built a responsive interface using HTML5, CSS3, and Bootstrap, ensuring seamless accessibility for local citizens across all device types.
- Optimized submission quality by transforming informal user inputs into structured, actionable reports for official platforms like the CM Helpline.

Technologies used: HTML, CSS, Bootstrap, AI Drafting Logic

Heart Disease Risk Prediction
(https://colab.research.google.com/drive/1MwlHzlwBlbtnIpMokt-r_u5TywsABC-L?usp=sharing)
Heart disease remains one of the most prevalent health challenges globally, and this dataset provides crucial information for understanding how different physiological and behavioural factors contribute to the onset of the condition. By examining a combination of demographic variables, health indicators, and lifestyle choices, this dataset allows for a comprehensive analysis of factors associated with cardiovascular disease.
Technologies used: Python

WORK EXPERIENCE

Altitudes (Data Analyst) **Jun 2024 - Jun 2024**

Coimbatore, Tamil Nadu
Completed a 15-day Data Analyst internship at Altitudes, focusing on Tableau and Power BI.
Developed interactive dashboards and performed data cleaning to derive meaningful insights.
Applied data visualization techniques to present trends and support data-driven decisions.

ACHIEVEMENTS

Hackathon 3rd Secured Price

• Secured 3rd Place in National Level Tech Mater ’25 Hackathon – Sree Saraswathi Thyagaraja College, Pollachi Competed against participants from 38 colleges nationwide, collaborating in a team to solve real-world challenges using innovative and scalable solutions. Strengthened skills in Web Development, Critical Thinking, Problem-Solving, and Team Collaboration, while delivering impactful tech-driven outcomes under time constraints.
